

About

Introducing Leaders in Dyslexia – Neil Mackay’s Quality Mark by Nessy, a groundbreaking, web-based program designed to empower schools in delivering exceptional teaching for all learners, particularly the 20+% on the dyslexia spectrum. Nessy, a global leader in education for diverse learners, has partnered with renowned dyslexia expert Neil Mackay to create this innovative Quality Mark, built around the principle that “getting it right for dyslexic learners gets it right for everyone.”

This comprehensive platform guides schools through a detailed self-audit process, offering three hours of accredited online CPD led by Neil Mackay. The training focuses on essential skills like spelling, reading comprehension, and writing, all within a “memory-lite” approach to reduce cognitive load and boost student confidence. Upon completion, schools receive a detailed report, CPD certificates for staff, and a Quality Mark certificate of recognition.

Schools implementing these strategies have seen reduced SEN/ALN registrations, improved classroom teaching, and heightened confidence among learners and parents alike.

5 Steps

1. Pre-Training Deep Dive - Complete the comprehensive self-audit to establish a starting point.
2. Review & Feedback - Your Deep Dive Report will be reviewed and you’ll receive feedback.
3. Training & Advice - You will receive expert advice and unlock video modules.
4. Post-Training Deep Dive - Once the advice has been implemented, complete a post-training self-audit.
5. Certification - When your Deep Dive has been reviewed and approved, you’ll receive an overall report and completion certificate.
